

MCIS 5413 - Spring 2017
Project Description
Due on 01/25/2017

Write a brief (at least 150 words) paragraph about a website that you are going to develop in this class. Pizza Store, Online Shopping Site, Course Management System are some of the example projects that you can work throughout the semester. Please include the following information in your project description.

- Introduction/Project overview
- Target Audience
- Website functionality:
 - o Example: Login, Registration etc.
- Data that will be stored in the database

The completed project description must be uploaded to the BlackBoard **Project Description** folder.
