

PSY 626 Module Five Short Paper Guidelines and Rubric

Prompt: For this assignment, step out of the “classroom” and research your community. Part of your program and course objectives is to understand where you will be able to work when you have completed this degree. Although you may not have a license to practice, there are likely many local agencies you could work with, either as a consultant or a full-time employee.

With this assignment, identify 3–5 different local sites where you could act as a consultant or employee. Clearly identify why you are qualified to work with the agencies you select.

Please note, you are not to approach these sites and present yourself as a forensic consultant, but you may identify yourself as a student of SNHU. If you visit a site, find out information about what services they provide and who is allowed to work with them. Be careful and ethical in how you present your own expertise.

Guidelines for Submission: For this assignment, you will investigate your own communities. The paper will focus on places within the community where you believe your education and expertise will allow you to gain employment, internship placements, or consultation agreements. Your paper must be submitted as a 2–3 page Microsoft Word document with double spacing, 12-point Times New Roman font, one-inch margins, and any sources cited in APA format.

Instructor Feedback: This activity uses an integrated rubric in Blackboard. Students can view instructor feedback in the Grade Center. For more information, review [these instructions](#).
