

BSIS 496 Assignment

Ethics Assignment

In *The Adventures of an IT Leader* (by Austin, Nolan & O'Donnell) book, there have been situations that could be considered an ethical dilemma. Select one that you consider a serious ethical dilemma. Describe why you think it is an ethical dilemma then discuss the actions that were taken that were inappropriate and describe what you think the ethical alternative actions should have been. Be sure to back up your answers with the logic you used in coming to your conclusion. If you used references to back up your conclusions (which I urge you to do), cite those references.

This assignment will be graded on both the quality of your written expression and the content of your answers.

Length and formatting: This assignment should be between 300 and 500 words in length using a 12-point font and 1.5 line spacing.
