Directions for assignment

Good grammar to grammatical errors or typos. Complete sentences

It is designed to establish your basic level of knowledge in the subject of policy analysis *prior* to the instruction in the course. Please complete this assignment to the best of your knowledge. It will not be graded for correct answers but *will be graded on the effort* put into the responses. Point value = 20.

The questions below are to be answered **only** from information provided in the "Adult Businesses in Alta Valle" which is in the **alta valle.docx** file in Course Content section of BeachBoard. Answers should be at least one good paragraph. Feel free to provide a longer answer if desired. *attached*

1. What is the policy issue in this case study?
2. Why is this issue a *public policy* issue?
3. Why is this an important problem for Alta Valle?
4. What are the important dimensions of the issue?
5. Who has an interest in the resolution of this issue? What do we need to know about them, why?
6. Where is this issue on the public agenda? How is it being handled?
7. What are the options for solving this issue?
8. What strategy should be used for evaluating the solution options?
