

HA2042 T2 2012
Assignment 1 - Individual Due: 5pm, Friday, Week 5

This assignment is an Individual Assignment of 1500 words in length. The assignment is to be saved as a Word 2003 document to be uploaded through Safe Assign.

The assignment file must be named in the following format:

- StudentID_Student Name_Assignment1.doc eg: If your Name is Fred Smith and your Student Id is ABC22345 then your assignment should be saved as ABC22345_Fred_Smith_Assignment1.doc
- The assignment must have your Name and Student Number in the footer of the document.

Assignment:

Microsoft, ORACLE, Epicor® and SAP all produce CRM and ERP solutions for medium to enterprise organisations.

MYOB AccountRight Premier is another well known electronic accounting system that is used by many small companies.

You are to choose either Microsoft, ORACLE, Epicor® or SAP (links are provided below) and compare their product against MYOB AccountRight Premier looking at what differentiates the products and places them in different levels for organisations.

- You should look at such things as price, platforms, features, users, ease of use, scalability etc.
- Could small business benefit from the “extra” features found in the non MYOB products?
- Explain how the product you have selected “fits” in the AIS cycles.
