2. Sign in using your Wix account (or create a new account if you do not already have one).

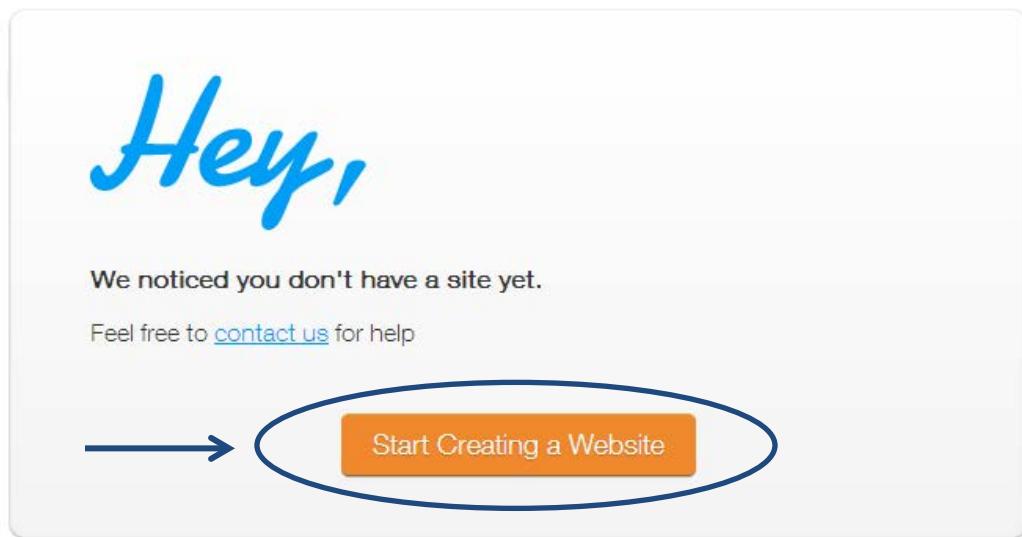

3. Once you have signed in (or created an account and signed in) you will be directed to choose a category to begin your website. You may do so on this page and follow their instructions, or you may click the Wix logo in the upper left to go to the home page.

4. If you are on the home page, click the “START NOW” button in the center of the screen.

5. You may receive the following message. If so, please click the “Start Creating a Website” button.

6. Select a template to use for your website. You may choose a pre-populated or a blank template.

8. When you are ready to populate your website with content, press the “Edit this site” button to begin.

MY SITE NAME Click to edit me
My slogan click to edit me

[Home](#) [Page 2](#) [Page 3](#) [Page 4](#) [Contact](#)

Hello there, I'm here to help. And when you've read me, you can delete me.
 1. To edit anything just click on it!
 2. Ready to add content?
 Click Pages > Add Page from the side menu to find pre-made page layouts or
 Click Add+ and drag & drop any element.
 See you on the next page.

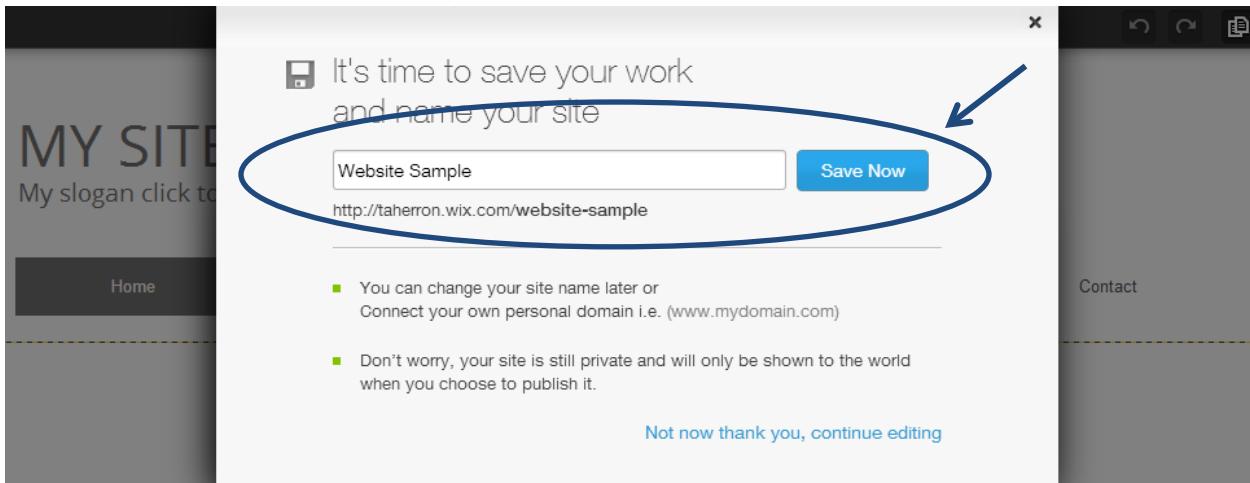

9. Watch the “How to” video(s).

10. Should you need help, be sure to visit the Wix Support Center.

The screenshot shows the Wix Help Center. A video player is displaying a video titled 'HTML Website Builder | Getting Started with The HTML Editor'. The video thumbnail shows the text 'GETTING STARTED WITH HTML5 EDITOR' and a small yellow fox icon. Below the video, there is a list of three steps: 1. Take a tour of the new editor with this video. 2. You can edit anything on the page just by clicking on it. 3. Use the side menu to navigate Pages, change your design and more. At the bottom of the video player, there is a link 'So what are you waiting for? Let's start creating!' followed by a downward arrow. At the very bottom of the screen, there is a 'Back' link and a link 'Need more help? [Wix support center](#)' which is circled in blue.

11. You will likely be prompted to name your site. Consult the instructions for your assignment to see if there are required naming conventions.

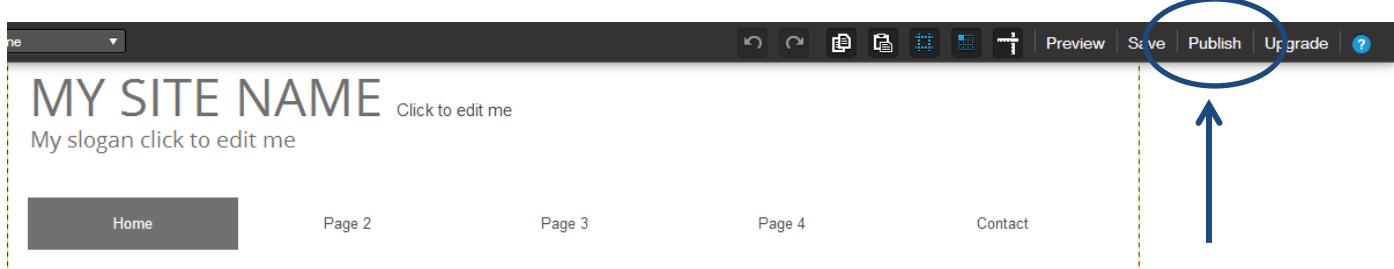

12. You may preview your website changes prior to publishing them by clicking the "Preview" button.

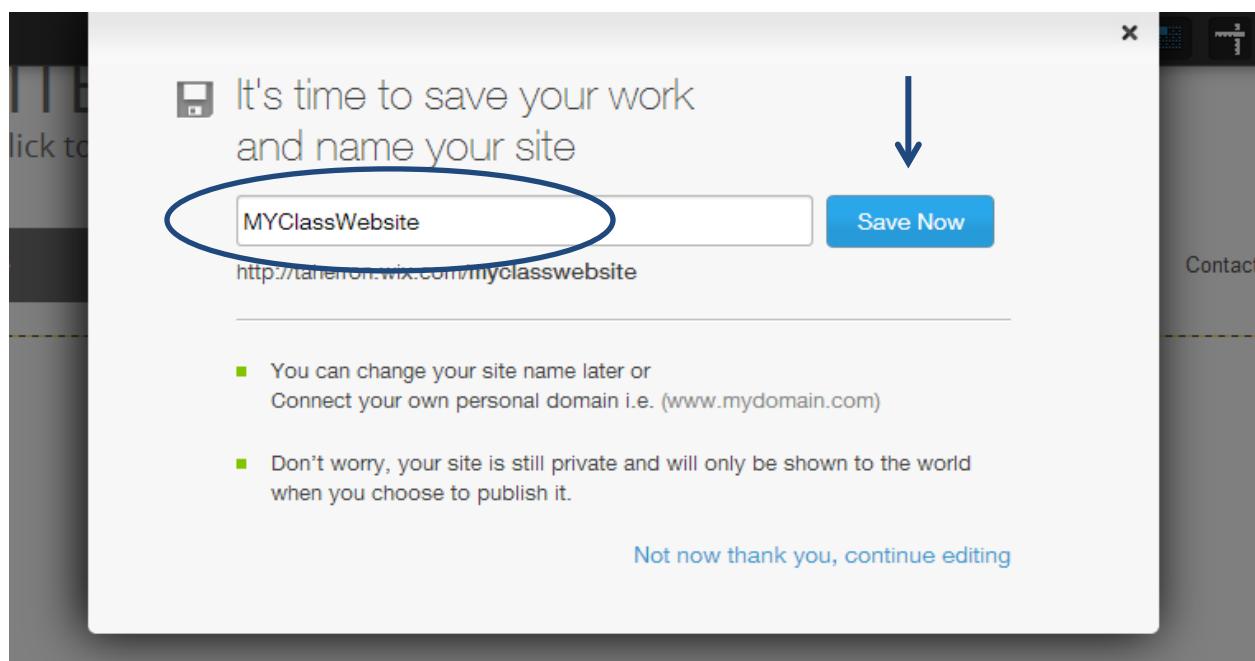

13. To return and complete your changes, click the "Back to Editor."

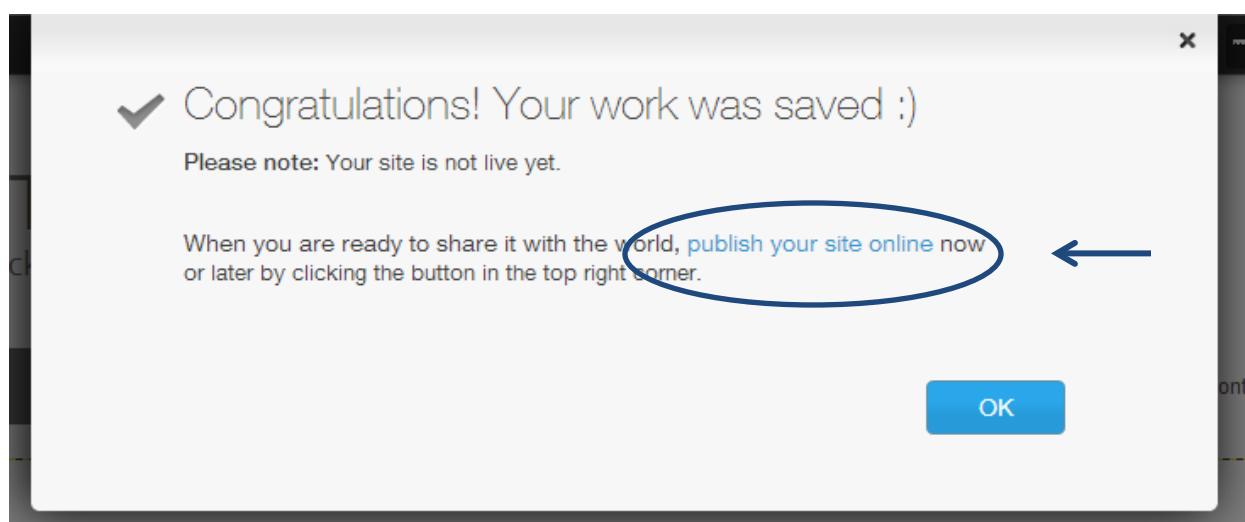

14. When you have completed adding your content and are ready to publish your website to the web click the “Publish” button.

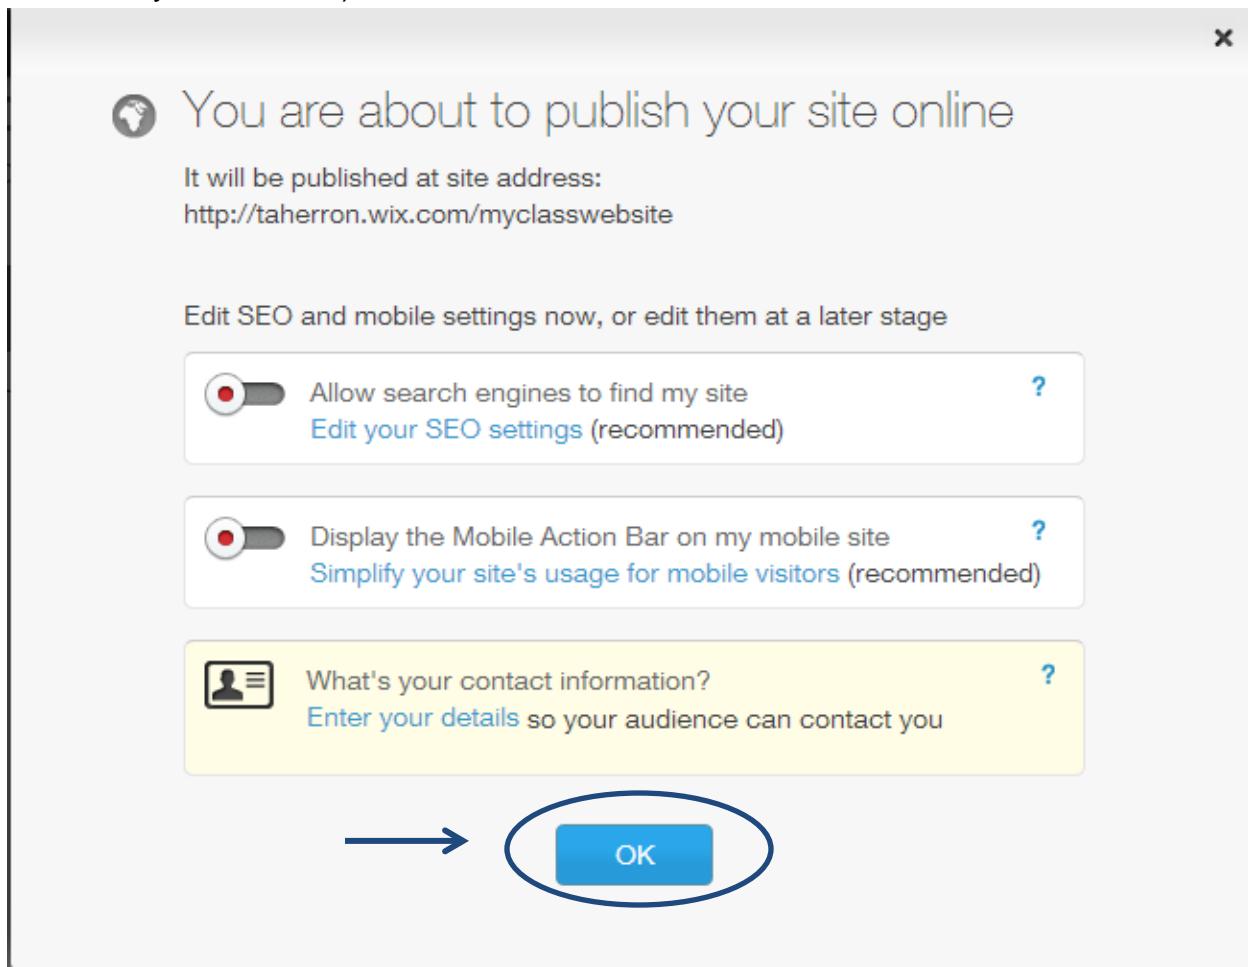

15. If you have not already done so, name your website and save it. (Consult the instructions for your assignment to see if there are required naming conventions)

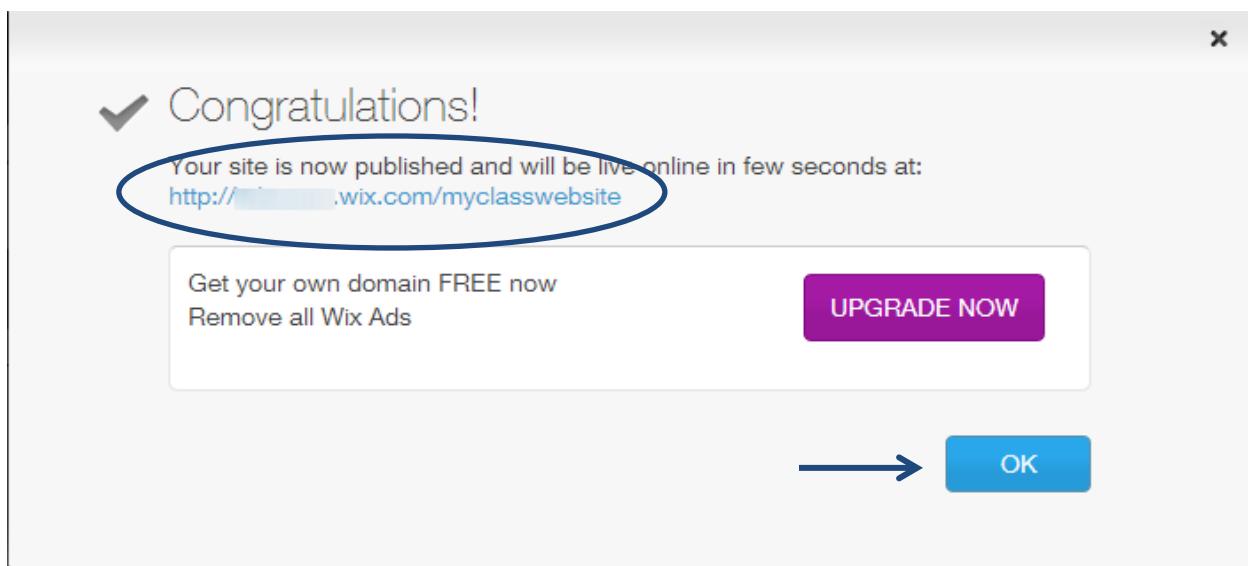

16. After saving your edits click the “publish your site online” link.

17. Click “OK” to publish your website. (The settings automatically default to your site being unsearchable on the web. Do not change these settings unless you wish to allow anyone in the world to view your website.)

18. Your website URL will appear. Copy and paste the URL into your assignment as directed in the instructions and submit it to your instructor. Then click “OK”.

- Be sure to create your website to conform to the parameters laid out in the assignment.
- Be sure to create your website as unsearchable to insure that it is not available to the public.
- You may edit your website until you feel comfortable with what you have completed for submission.
- You may delete your website at any time, however once a website has been deleted, the URL will no longer work. Wait until you have received the grade for your submission prior to deleting the site.
- If you run into any issues using the Wix.com platform, visit their [support page](#) for assistance.
