A. Security Faults	A description is not provided, or fewer than 3 faults are described.	The description identifies 3 security faults, or the faults do not logically align with the scenario.	The description clearly identifies 3 security faults that caused a security breach, and the faults logically align with the scenario.	
B. Policy Statements	Fewer than 3 policy statements are provided, or the statements do not relate to the breaches in part A.	Three policy statements are provided, but 1 or more of the statements does not apply to the entire organization, does not comply with national or international standards, or is not preventive.	Three organizational policy statements are provided and might have prevented the security breaches described in part A. *Each* statement applies to the entire organization, complies with national or international standards, and is preventive.	
B1. Compliance with Standards	A justification of *each* organizational policy statement is not provided.	A justification of *each* organizational policy statement is provided, but the justification does not show how *each* policy statement complies with a specific nationally or internationally recognized standard, or the justification does not include how the policies could plausibly be enforced at the company.	The justification shows how *each* of the organizational policy statements complies with a specific nationally or internationally recognized standard and shows how *each* policy could plausibly be enforced at the company.	
C. Sources	The submission does not include both in-text citations and a reference list for sources that are quoted, paraphrased, or summarized.	The submission includes in-text citations for sources that are quoted, paraphrased, or summarized, and a reference list; however, the citations and/or reference list is incomplete or inaccurate.	The submission includes in-text citations for sources that are properly quoted, paraphrased, or summarized and a reference list that accurately identifies the author, date, title, and source location as available.
