

## Unit 5 Chapter 8 Assignment

[instructions](#) | [help](#)

1.

value:  
10.00 points

Condon Chemicals manufactures paint thinner. Information on the work in process follows:

- Beginning inventory, 43,000 partially complete gallons.
- Transferred out, 206,300 gallons.
- Ending inventory (materials are 22 percent complete; conversion costs are 8 percent complete).
- Started this month, 238,600 gallons.

**Required:**

- a. Compute the equivalent units for materials using the weighted-average method.

Equivalent units (gallons) 

- b. Compute the equivalent units for conversion costs using the weighted-average method.
