## HW #9 – Mass Wasting & Floods

**DUE Thurs. May 25**

**Objectives**: at the end of this assignment, you will be able to:

- Articulate the processes that drive mass wasting and flood events.

### **PART 1: Mass Wasting**

*Research a major landslide or debris flow. Write one paragraph that describes when/where it happened and what factors contributed to the event.*

### **PART 2: Floods**

*Research a recent or historic flood. Write one paragraph that describes when/where it happened, factors that led to flooding and any measures that were taken to attempt to control the flood.*
