

Introduction:

Due to policy changes, personnel changes, systems changes, and audits it is often necessary to review and revise information security policies. Information security professionals are responsible for ensuring that policies are in line with current industry standards or information security laws and regulations.

Task:

- A. Develop new policy statements for the following sections of the attached "Heart-Healthy Insurance Information Security Policy":
 - 1. New Users
 - 2. Password Requirements
- B. Justify your modifications in parts A1 and A2 based on current industry standards or information security laws and regulations that are applicable to the case study.
- C. When you use sources, include all in-text citations and references in APA format.

Note: When bulleted points are present in the task prompt, the level of detail or support called for in the rubric refers to those bulleted points.

Note: When using sources to support ideas and elements in a paper or project, the submission MUST include APA formatted in-text citations with a corresponding reference list for any direct quotes or paraphrasing. It is not necessary to list sources that were consulted if they have not been quoted or paraphrased in the text of the paper or project.

Note: No more than a combined total of 30% of the submission and no more than a 10% match to any one individual source can be directly quoted or closely paraphrased from sources, even if cited correctly.
