

Directions for Peer Review Paper Outline

Biol. 100 Due: Feb. 17th, 2016

(5 points)

This outline to be handed in is to be an outline with bullet points, numbers, and/or letters however you choose to outline it. It is not meant to be a rough draft. It should be typed and a half page to a page in length.

For the peer review you will need to choose your topic from the following three topics:

- Stem cell research
- Health disparities within communities
- **or** Genetically Modified Organisms, GMO's.

Your outline should include three sections:

- Introduction with thesis statement which is a concise summary of the main point or claim of the peer review paper.
- The social justice issue or ethical dilemma of your topic
- Your opinion on the solution for this issue or dilemma

In addition begin a list of references using the format describe in the peer review instructions found on iLearn. You will need at least one reference. You may NOT use Wikipedia, blogs, or similar sources as a reference.
