

The article "Frieson Black Cultural Center Emphasizes Multicultural Programming" is ^{focused on} talking about an organization which ^{is} ~~is~~ ^{are} caring about the multicultural education whom ^{that} recently changed their name to "Frieson black cultural center". The new name ^{wording} ~~made~~ ^{created} a huge controversy because it shows that the center is for black people only while it ^{is} ~~is~~ supposed to show diversity.

The office ^{is} ~~is~~ trying to show that they are inclusive together and the fact that they ~~don't~~ ^{do not} just have black people, ^{but why cater to} they have people from ^{many} all different places. The center's goal is to collaborate with other organizations to promote solidarity.

~~First of all~~ I believe that this kind of organizations is important for multicultural education because it makes the students equal and know each others, and their cultures, no matter where they are from and what is their races. Moreover, as for me, I am an international student who is studying in the United states where everything here is different from my country. So, these kind of organizations will help me understand the new place and culture and make me adapt with the people there.

But now the question is, if they want their organization to be successful and to have multicultural students, why do they use the word "black" in ^{the centers} its name. this word will limit their success no matter how hard they try. ^{how so?}

If the organization wants to ^{be successful} have a huge success they should change their name to a better one. The name shows that its limited ^{to being} for black people but ^{that is they are} that's not their trying to show. In my opinion I think that their name is limiting their success, and they should have a different one which shows unity and solidarity.

Thank for your paper Review. They probably use that word because of things that have happened to Black students on the campus. Great article choice!! Interesting. Lots of word usage & grammatical problems. Please find writing help! These ideas are coming along. need writing help! (-3) ks

where is the center?

short it
