### **CCN Mission & Vision**

Chamberlain will graduate extraordinary nursing professionals who transform healthcare worldwide.

Chamberlain provides a superior nursing education experience distinguished by academic excellence, innovation, integrity, and world class service. We are committed to graduating compassionate, ethical, and knowledge nurse leaders who are empowered to transform healthcare.

### **Essential I**

Scientific Background for Practice: The focus of Essential I is to prepare the master's-prepared nurse to integrate scientific findings from nursing practice and related fields, such as biology, to provide a perpetual improvement of care provided in a variety of settings (AACN, 2011).

### **Essential II**

Organizational and Systems Leadership: Essential II identifies the need for ethical and critical-thinking skills coupled with effective communication skills to promote interdisciplinary relationships that promote outstanding quality and safety in the provision of nursing care (AACN, 2011).

### **Essential III**

Quality Improvement and Safety: Essential III identifies the need for the master's-prepared nurse to be fluent in measures that promote improvement of quality and safety within the organization (AACN, 2011).

### **Essential IV**

Translating and Integrating Scholarship into Practice: The focus of Essential IV is to ensure that the master's-prepared nurse applies research principles to the practice setting. He or she must demonstrate the ability to solve problems, initiate organizational change, and disseminate the outcomes of research (AACN, 2011).

### **Essential V**

Informatics and Healthcare Technologies: The focus of Essential V is the use of information technology to communicate, integrate, and coordinate the delivery of patient care (AACN, 2011).

### **Essential VI**

Health Policy and Advocacy: Essential VI identifies the ability to initiate changes that enable one to serve as a

patient advocate through the process of policymaking (AACN, 2011).

### **Essential VII**

Interprofessional Collaboration for Improving Patient and Population Health Outcomes: The focus of Essential VII is the ability to serve as an effective member and/or leader of a multidisciplinary team to coordinate patient care (AACN, 2011).

### **Essential VIII**

Clinical Prevention and Population Health for Improving Health: The focus of Essential VIII is the ability of the master's-prepared nurse to integrate and deliver culturally competent care in all phases of providing care to a diverse population of clients (AACN, 2011).

### **Essential IX**

Master's-Level Nursing Practice: The focus of Essential IX is the advanced level of understanding of a master's-prepared nurse. He or she must demonstrate the ability to integrate the knowledge gained as a result of graduate study into nursing practice (AACN, 2011).
