

CRITICAL THINKING ASSIGNMENT #2

TITLE: DATA SECURITY

Instructions: utilizing your reading material from chapter 14, answer the below two questions:

1. How would you communicate a data security policy that required software checking of employees' emails?
2. Part I: What elements should a data security policy for a bank include?
Part II: Employee data theft most frequently occurs with new employees or when an employee has given notice and is leaving. How would you deal with these two very different issues?

GRADING CRITERIA:
