

### Excel Task Corrections

Please use the following corrected items (b and d) for Excel Exercise Project.

b. Place the current date so that it is centered in cells C3, D3, and E3, which must be merged.

d. Figure AE-1 uses the following formulas:

**Cost of Current Inventory = Bike Cost X Number on Hand**

**Revenue per Bike = Total Rental Revenue / Number on Hand**

**Revenue as a Percent of Cost of Inventory = Total Rental Revenue / Cost of Current Inventory**
