# Assignment 6 – Grouping Data

Summer II 2017

The due date for the assignment 6 is **7/30/2017 (midnight).** It must be submitted through the "Assignment 6 – Grouping Data" in Dropbox provided on the eCollege. It is important that you specify your name in the SQL file. The attachment name should follow the following convention: BUSA326_ASSIGNMENT6_FIRSTNAME_LASTNAME.SQL

Import the assignment data code (skip if you did in last assignment) and use the following logical schema to answer questions below. For each question, please write comments to indicate the question you want to answer **(-1 point deduction if you don't).** Note that you won't get any credits if you use codes that haven't learned in or before Topic 7 – Grouping Data:

1. Display the average raw score (1 point)
2. Display the average raw scores of team 'Dolphins (1 point)
3. Display the average raw scores of all team (1 point)
4. Which location hosted tournament on the earliest tournament date (1 point)
5. Which team play in odd lane more than in even lane (2 points)

6. Show all information of bowler who has average of raw score greater than average score of everyone by 20 points (2 points)
7. Name your own query question and answer it (1 point)
8. Name your own query question and answer it (1 point)

The following criteria will be used to grade the assignment:

- Codes are run with detail comment, accurate, and answers are correct.
