

Homework #6 – ISM 3230 Summer 2017

SAMPLE PROGRAM OUTPUT

Be sure to format the output of your program so that it follows what is included in the example below. Remember, **bold** items are entered by the user when the program runs (and therefore can change each time the program runs).

```
Please enter the candidate's name: Dory  
Please enter the number of votes: 5000
```

```
Please enter the candidate's name: Nemo  
Please enter the number of votes: 4000
```

```
Please enter the candidate's name: Destiny  
Please enter the number of votes: 6000
```

```
Please enter the candidate's name: Bailey  
Please enter the number of votes: 2500
```

```
Please enter the candidate's name: Marlin  
Please enter the number of votes: 1800
```

Candidate	Votes	Percentage
Dory	5000	25.906735751295336%
Nemo	4000	20.72538860103627%
Destiny	6000	31.088082901554404%
Bailey	2500	12.953367875647668%
Marlin	1800	9.32642487046632%
Total	19300
