

```
public class DogTester {  
    public static void main(String[] arg) {  
        DogOwner DogOwner jill;  
        Dog d = new Dog("Hotdog", "poodle", 15.0, true);  
        jill = new DogOwner("Jill", d);  
        Dog c = new Dog("Chuckles", "spaniel", 8.0, false);  
        jill.setDog(c);  
        jill.setName("Darth");  
        jill.getDog().setName("Lancelot");  
        /* your code here */  
    }  
}
```
