Unit 1 - Individual Project

Assignment Overview	**Go To:**
Type: Individual Project **Unit:** Project Analysis and Planning **Due Date:** Sun, 4/30/17 **Grading Type:** Numeric **Points Possible:** 125 **Points Earned:** 0 **Deliverable Length:** 3–5 pages	• **Assignment Details** • Scenario • Learning Materials • Reading Assignment **My Work:** Online Deliverables: Submissions

Assignment Details

Assignment Description

You will be working on a capstone project of your choosing throughout this course that relates to integrating multiple server and workstation platforms into a single network environment. You will craft a project description, develop a milestone project plan, and describe overall project objectives in this first week. The project should be for no more than 1 year in length.

Assignment Guidelines

Your first task in this process is to select a real or fictitious company to use as the basis for your project. You will also begin to create a document for the capstone project that you will be adding to each week. As you proceed through each week's Individual Project, you will add content to the final document. Appropriate research should be conducted to support the analysis in your project, and assumptions may be made when necessary.

This week, you will complete the following:

- **Project Information**
  - Brief description of the selected enterprise or company
  - Overall project objectives
  - Business or technical needs that will be met by this project
- **Capstone Milestone Project Plan** (see sample table below)
  - A plan that contains the major milestones that are needed to complete the project based on research of activities required
  - Start and completion dates
  - Assumptions or other relevant milestone information

Project Requirements	Milestone	Estimated Start	Estimated End	Assumptions
1. Identified servers will operate in a single network environment	Requirements documentation	3/1/2012	3/8/2012	There is a need to integrate servers on multiple platforms into a single network environment
2.				
3.				
4.				
5.				

- **Requirements Specifications**
  - Based on what you learned during the Discussion Board, identify at least 10 objectives for this project.
  - Identify the potential users of the system.

Final Project Word Document

- Title Page
  - Course number and name
  - Project name
  - Student name
  - Date
- Table of Contents (TOC)
  - Autogenerated TOC

- - - Be sure to update the fields of the TOC so it is up-to-date before you submit your project.
  - Placed on a separate page
- Section Headings for Week 1
  - Project Information
  - Capstone Project Milestone Plan
  - Requirements Specifications

Name your document "yourname_IT495_IP1.doc."

Please submit your assignment.

Adhere to APA formatting and reference guidelines when writing your response. Additionally, your response should be free of grammatical errors, use complete sentences, and give specific details to support statements.

For assistance with your assignment, please use your text, Web resources, and all course materials.

Reading Assignment

Assignment Objectives

- Develop practical job skills that balance theoretical concepts.
- Integrate multiple server and workstation platforms in a single network environment.

Other Information

There is no additional information to display at this time.
