

IT 270 Module Three Practicing Intermediate CSS Concepts

In the first seven videos of the “Styling Your HTML” section of the “Front-End Web Development Quick Start with HTML5, CSS and JavaScript” module on Pluralsight.com, you watched—and hopefully followed along. These tutorials demonstrated how changes made to the index.html file and CSS file affect the website content that is rendered in the browser window.

In this exercise, you will begin with the index.html file in the Mod3-Act1 folder and add several additional pieces of content and styles, based on your watching and understanding of the first seven videos of the “Styling Your HTML” section and the “Front-End Web Development Quick Start with HTML5, CSS and JavaScript” section.

Step 1. Download the [IT-270 Supplement](#)

[Exercise Files](#) zip file if you have not already done so.

Step 2. Navigate to the Mod3-Act1 folder in the exercise files.

Step 3. Drag the index.html file to a blank web browser tab or window—your starting page should look like the figure below and to the right.

Step 4. Return to editing the **index.html** file in Sublime Text by either using the File menu > Open File command in the program or by dragging the file from the folder window into the blank Sublime Text window.

Step 5. Complete the following edits and additions in the **index.html** file:

Quod autem satis est, eo quicquid accessit, nimium est;

Quod autem satis est, eo quicquid accessit, nimium est; *Quidem modo paria peccata sunt. Ait enim se, si uratur. Quam hoc suavet dictum. Itaque hic ipse iam pridem est reiectus; Nam ante Aristippus, et ille melius. Satisne vobis video pro meo iure in vestris auribus commentatus? Minime vero sifrum quidem, inquit. Hanc quoque iucunditatem, si vis, transfer in animum; Faceres tu quidem. Torquate haec omnia. Numquam facies.*

Quorum altera prosunt, nocent altera. Negabat igitur ullam esse artem, quae ipsa a se proficeretur; At hoc in eo M. An tu me de L. Profectus in exilium Tubulus statim nec respondere ausus; In his igitur partibus duabus nihil erat, quod Zeno commutare gestiret.

Hanc quoque iucunditatem, si vis, transfer in animum;

Sed virtutem ipsam inchoavit, nihil amplius. Ut aliquid scire se gaudent? Tum Quintus. Est plane, Piso, ut dicas, inquit. Sed quoniam et advesperascat et mihi ad villam revertendum est, nunc quidem hactenus;

- A. Place opening and closing `<div>` tags around the entire `` reference, just after the `<h1>` headline. Add the class attribute of “fixed” to the opening `<div>` tag.
- B. Directly below the first `` reference, add another:
``
- C. Place opening and closing `<div>` tags around the `` reference you just created, and add the class attribute of “floated-image” to the opening `<div>` tag.
- D. At the start of the last full paragraph (starting with the words “Sed virtutem”), add the following code:
`<div class="inline-box">Go Penmen!</div>`

Step 6. Switching over to your `style.css` file, create a new class selector called `.fixed` with the following attributes (which will utilize the CSS **positioning** attribute to “fix” the SNHU.edu logo at the lower right corner of the screen):

```
position: fixed;  
bottom 0;  
right: 0;
```

Step 7. Create another new class selector called `.floated-image` with the following attributes (which utilizes the CSS **float** attribute to place the Penmen logo in a similar fashion to the SNHU logo when you first started):

```
float: left
```

Step 8. Create another new class selector called `.inline-box` with the following attributes (which will utilize the CSS **display** attribute to place an inline blocked tagline):

```
display: inline-block;  
border: 3px solid red;  
width: 100px;  
height: 15px
```

Step 9. Proof your finished work in a blank browser tab or window before submitting your assignment. Your finished work should look like the figure at right.

Quod autem satis est, eo quicquid accessit, nimium est;

Go Penmen! Sed virtutem ipsum inchoavit, nihil amplius. Ut aliquid scire se gaudent? Tum Quintus: Est plane, Piso, ut dicis, inquit. Sed quoniam et aduerserat et mihi ad villam revertendum est, nunc quidem hactenus.

Step 10. When you have completed the assignment according to the requirements outlined above, save

your work and zip up the complete “Mod3” subfolder in which you have been working this exercise, and submit it using the assignment link in Blackboard.
