

## EBI 204: Operating System Principles #1

1. Define Operating System. (4m)

---

---

---

---

2. Discuss the objective of Operating System. (12m)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

3. Differentiate the four components of Computer System.  
(8m)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

#### 4. Discuss the function of Operating System. (12m)

## 5. Discuss the Computer System operation. (8m)

## 6. Explain the structure of I/O. (6m)

---

---

---

---

---

EBI 204: Operating System Principles #2

1. Discuss the services offered by Operating System. (16m)

## 2. Explain the Operating System interface. (10m)

### 3. Discuss the design and implementation of Operating System. (10m)

#### 4. Differentiate the parts of UNIX. (6m)

## 5. Clarify the advantage of the Layered Approach. (8m)
